MEMORANDUM FOR: EA/Executive Director

FROM: Charles A. Briggs
Inspector General

SUBJECT: CTC Panel Semi-Annual Report

- Disagree with DDS&T suggested dissolution of the Panel.
- Question the exclusion of "the significant ... compartmented programs." Am not aware of their enjoying "top level review" outside of the DS&T -- is it objective?
- Note that the criteria for CTC Panel review includes "political sensitivity" not just dollar cost. How is that sensitivity determined? By whom? Are there such cases now?
- Agreeing in principle that the CTC "should continue to be the Agency mechanism for coordinating....," how, in fact, is that done? Is there a data base -- a central record? (Note that DDCI Carlucci's charter called for such.)
